

tesseract\_collision  
/vhacd/include/tesseract  
\_collision/vhacd/inc/vhacdICHull.h

```
graph BT; A["tesseract_collision  
/vhacd/src/vhacd/VHACD.cpp"] --> C["tesseract_collision  
/vhacd/include/tesseract  
_collision/vhacd/inc/vhacdICHull.h"]; B["tesseract_collision  
/vhacd/src/vhacd/vhacdICHull.cpp"] --> C;
```

This diagram illustrates the relationship between source files and a header file in a project. Two source files, 'VHACD.cpp' and 'vhacdICHull.cpp', are shown at the bottom, both with arrows pointing to a header file 'vhacdICHull.h' at the top. The header file box is shaded gray, while the source file boxes are white.
