

tesseract\_scene\_graph  
::StateSolver

```
graph BT; KDL[tesseract_scene_graph::KDLStateSolver] --> State[tesseract_scene_graph::StateSolver];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray-shaded box labeled 'tesseract\_scene\_graph::KDLStateSolver'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'tesseract\_scene\_graph::StateSolver'. This indicates that 'KDLStateSolver' inherits from 'StateSolver'.
